

**METHOD OF CONSTRUCTING A CAPACITOR STACK  
FOR A FLAT CAPACITOR**

Abstract

5           A method of manufacturing a capacitor stack for a flat capacitor includes  
sequentially stacking a plurality of capacitor layers on top of each other such that each  
one of the plurality of capacitor layers is, in turn, a top layer of the capacitor stack, and  
continually applying a compression force between a bottom layer of the capacitor  
stack and the top layer of the capacitor stack until all of the plurality of capacitor  
10 layers have been placed.
